

Time to say goodbye!

This Tannistest has been a great success! Good weather – especially in the first many days - nice cars, fine tests and excellent photo sessions.

And off course, we managed to have two interesting interview sessions too. So we got what we came for, and I can conclude, it has been great to join Tannistest

whatever you are a journalist or a representative of the industry.

Now it is time to thank all of you for the visit and wish you a safe journey back home.

And remember: Welcome back next year!

*On behalf of the Nordic jury group
Søren W. Rasmussen*

19.30 Dinner

Menu

Starter

Smoked lamb culotte with cabbage salad and oranges

Main course

Pork tenderloin and chicken, served with fennel

Dessert

Lemon mousse

Toyota City - Tannisby

It was easy to get in-depth information on the new Toyota Corolla – as the chief engineer himself, Toshio Kanei, travelled to Tannisby.

That was a long way and a short stay. He came directly from Japan, stayed 24 hours at Tannishus – and returned directly. That fast trip included six flights plus a train the last distance from Haneda Airport til Toyota City.

Tannistest is not totally new to Toshio Kanei. He was here 12 years ago with the first generation Auris. And Europe is not unknown territory to him. He spent four years – until early 2019 - in Belgium developing the new Corolla for Europa.
