

Pure electricity

EVs are catching up. This year sets a record for Tannistest with five pure electric cars attending. The total numbers for COTY 2020 candidates will be slightly higher. It is foreseeable, that the numbers of EVs for Tannistest 2020 will at least double. On Monday the photoshoot with the Audi e-tron, Kia Soul, Peugeot 208, DS 3 Crossback and Tesla Model 3 went well. The picture here is available on tannistest.com and will be included in the photo package too.

A tip for the editor?

Welcome on the beach

In this corner of Europe, it is allowed to drive on the beach – 300 meters from Tannishus. So enjoy the spectacular drive here.

Remember to be careful and considerate, especially to pedestrians. The (recommended) speed limit is 30 km/h.

Also, the sand can be tricky. Please be aware of this when you drive and park.

It is possible to drive 0.4 km to the left and 1.6 km to the right, before you meet small streams.

All the COTY-winners - do you remember?
