Speeddating at the beach

The iconic Tannistest picture is secured once again. The sand was perfect, the beach wide and though there was no sun, the clouds gave a nice soft light.

Thanks to great efficiency and experience, the whole exercise was completed in less than one and a half hour from the first cars departed Tannishus. The photo

was done before 10.00. All time record! Karsten from Motor (DK), Markus from Tekniikan Maaailman (FIN) and Oskar Omne from Dagens Industri (S) had done excellent planning.

The picture is available to all participants for publication on www.tannistest.com

Ready for take-off!

Time for a tour to the airport. At 8:00 today keys for the cars selected for maneuvers at Sindal Airport will be distributed. We need the cars to be at the airport at 9.00.

The cars will go through the traditional elk test, performed by Jan-Erik (S), an AEB-city brake test against a standardized obstacle, done by Søren (DK) and a slalom-course, which jurors and cooperators are welcome to do.

We plan to finish at around 13.00.

Meet the experts

Today at 16-18 we will have the first of two interview sessions with experts and PR-people from the industry. Both Jurors and co-operators are warmly welcome to attend. Today OEMs: **Audi, BMW, Land Rover, Subaru, Tesla and VW.**
