

## Sindal done!

The special test at Sindal Airport was performed yesterday in a great co-operation between the industry and the journalists from mainly the Nordic countries.

The results indicated a signi-

ficant improvement in both the elk test and the AEB test compared to the years before, but still with some distance from bottom to top.

All tests were well executed before lunch-time...

## It's party time!

Work is almost done! Though there is still up to two days more of testing, many cars have now been driven intensely, photographed and details discussed with experts.

So, it is fair to look forward to our traditional farewell party. The ceremonial highlight of the week, the Dinner of the Year, will be served in the hotel's ballroom tonight at 20.00.

We will be more than 100 people. We will meet for a cocktail at 19.30 in the bar area. The party

is rather big but the dress code is 'business casual'.

Before the party we have our traditional interview session. This time seven brands bring their experts for discussions. The session starts at 16.00. I strongly encourage all jury members and their journalist colleagues to find time for the occasion, which is very fruitfully.

I wish you a good testing day and a very nice evening!

*Søren W. Rasmussen*

## Weather today

**Hi: 15 - Lo: 13**  
Wind 5 m/sec. E

Chances of some sun in the morning, cloudy the rest of the day. Calm winds.

High tide: 2.26 + 14.44
